

Republicans Overseas

Republicans Overseas advocates for and promotes the interests of the 8.7 million Americans living outside of the USA.

Get Out the Vote

Less than 300,000 out of an estimated 8.7 million overseas Americans cast absentee ballots in 2012. The Republicans lost the White House in 2012 by less than 500,000 votes. An additional 500,000 votes from overseas Americans can determine the election.

Abolish FATCA

FATCA denies overseas Americans important constitutional protections and imposes undue hardships. The Same Country Safe Harbor act proposed by the Democrats is unworkable and perpetuates FATCA's constitutional violations on overseas Americans.

Representation at the RNC

Republicans Overseas has 20 non-voting delegates at the Republican National Convention and a strong relationship with the RNC. We ensure that our issues are heard at the highest levels within the party.

Challenge FATCA in Court

Democrats imposed FATCA, and a Democratic president will not repeal it. We are challenging the constitutionality of FATCA and the undue hardships that it imposes on overseas Americans.

End FBAR

Along with FATCA, the FBAR regulations deny constitutional protections to overseas Americans and impose disproportionate penalties for non-compliance.

Return to Residence Based Taxation

We advocate the repeal of Citizen Based Taxation (CBT). CBT was enacted during the Civil War. The Civil War ended long ago, and CBT should revert to Residence Based Taxation.

Educate Congress

We provide members of Congress with information and data on key issues that affect overseas Americans such as FATCA and the Passport Revocation Provision of the FAST Act.

Repeal Passport Revocation Provision

We advocate the repeal of the Passport Revocation Provision of the FAST Act which gives unprecedented and unconstitutional powers to the IRS.
